BUSINESS OPPORTUNITY • ENGINEERING • JANUARY 10, 2012

Continental Placer Inc. is looking for a geotechnical/civil engineer or small engineering or environmental services group to join forces and team with. We think a strategic partnership will help to grow both your and our client bases. We have class A offices located on Wolf Rd in Albany, New York, with all applicable equipment. We employ an experienced administrative, CADD and business development staff to assist in mutually targeted projects and growth strategies. We have an entrepreneurial environment and look forward to a new and exciting alliance.

Interested parties should contact Brent Tardif, Sr VP, at 518-458-9203.

Continental Placer Inc. is a multi-disciplinary consulting firm providing interrelated geologic and environmental services to a wide range of clients. Since 1988, our professional geologists, engineers and environmental specialists have worked together providing innovative, cost-effective solutions to maintain a distinguished reputation as a client-focused consulting firm. Originally formed with the aggregate mining industry as its primary focus our original objective has greatly expanded to offer services within the fields of mine planning, mine safety, hydrogeology, environmental services, geotechnical services, groundwater supply, environmental management and remediation, regulatory compliance permits and mine acquisitions/divestiture.

In today's fast paced business climate a collaborative effort to be innovative and unique is imperative not only to survive but to thrive. As a senior-level consulting firm, the ideas of our professionals can be easily communicated, acknowledged and considered. Continental Placer Inc. has a core belief that we must be the most trusted and most knowledgeable advisors to our clients. This can only be achieved by including the highest caliber of personnel to our team. Experience is important but we also know integrity, innovation and the openness to growth and learning are critical in attaining the greatest level of performance and success.

The Company's mission is to be a respected consulting firm of professionals, providing client solutions in areas related to mining, geology, hydrogeology and environmental issues. The goal of anticipating a client's needs and providing the greatest level of competent advice possible is always the challenge. The leadership at Continental Placer Inc. understands this and strives to mentor and advocate personal learning, professional growth and product improvement. We listen to ideas and follow current trends; we make every effort to allow for professional training and education. We always encourage the development of new services and new products. Please visit our website www.continentalplacer.com.

Re: Senior Environmental Consultant

Continental Placer Inc. (CPI) is a full-service geologic and environmental consulting firm with four offices in the eastern United States. CPI provides resource extraction consulting to the aggregate mining industry, geotechnical services, water supply resource management, and a wide range of environmental services, including permitting, assessments, compliance audits, industrial decommissioning, site closures and Brownfield redevelopment. Please visit our website at www.continentalplacer.com.

We are currently looking for a Senior Environmental Consultant who can help grow our environmental consulting services group in the upper/Mid-Atlantic region. The position requires the ability to develop staff, develop business, manage projects and provide and implement growth strategies for the region. Serious candidates are expected to be goal-oriented, and have eight years or more experience with developing private-sector business related to environmental assessment, soil and groundwater remediation, risk assessment, regulatory negotiation, or site development. Profit and loss responsibility is expected.

Continental Placer Inc. offers an entrepreneurial environment, competitive base salary, excellent benefits, and freedom to take the office division in a desired direction within a sound business model.

Please send cover letter and resume to btardif@continentalplacer.com or mail to the above address attention Brent Tardif, Senior Vice President.

JOB ANNOUNCEMENT • ALBANY, NEW YORK

Staff Geologist / Mining Engineer (3-8 Years Experience)

Continental Placer Inc., a geologic and environmental consulting firm is currently seeking a staff level geologist or mine engineer; knowledge of the construction aggregate industry helpful. The successful candidate will work and learn with our senior level geologists at the corporate office in Albany, New York. The Staff Geologist will participate in all phases of mining, geology, and environmental studies within the eastern half of the United States, with some travel throughout the United States. This position will expose you to a wide variety of fieldwork and operations primarily within the construction aggregate, cement, and specialty rock industries. You will have the opportunity to interact at all levels of the mining community learning your trade, the technology and the industry's unique business environment.

Responsibilities include a range of office and field assignments using your analytical skills to write accurate and concise reports, permits and environmental impact studies, within the timeframe needed. Such activities as geological mapping, environmental audits, drill rig supervision, core sampling/logging, and mine surveying will be required.

Requirements:

- BS in Geology or Mining Engineering, MS a plus.
- Knowledge of AutoCAD, computer mapping programs, mine surveying maps, and computer reserve analysis.
- Proficient in Microsoft Office (Outlook, Excel, and Word).
- Report and analytical writing and formatting is required.
- Ability to initiate and coordinate client projects on time and with minimal supervision.
- Knowledge of GEMCON, Arcview or GIS a plus.
- Previous construction aggregate experience in Northeast a plus.
- Travel and fieldwork required.

Please send cover letter and resume to btardif@continentalplacer.com or mail to the above Albany, New York address attention Brent Tardif, Senior Vice President.

JOB ANNOUNCEMENT • WHEATON, ILLINOIS

Senior Mining Consultant to Direct Mining Services in the Midwest, U.S.

Continental Placer Inc. in Wheaton, Illinois, a leafy suburb of Chicago, seeks a senior mining consultant to lead mining services in the Midwest. The office currently provides extensive environmental services to industrial and mining customers. A successful candidate will have experience within the aggregate mining industry, all phases of mine planning, permitting, mine operations, exploration, and product quality control. This position requires sales to existing mining customers as well as new customers and management of the office's mining staff. As a seller-doer environment, compensation will be predicated on experience and performance.

You will have the opportunity to interact at all levels of the mining community, develop the department, advance technology and participate in the industry's unique business environment. The goal of anticipating a client's needs, providing a high level of competent advice is always the challenge. We listen to ideas, follow current trends, and make every effort to allow for professional training and education. We always encourage the development of new services and products. Continental Placer offers a generous benefit package and competitive salaries.

Requirements:

- BS in Geology or Mining Engineering, MS a plus.
- Knowledge of AutoCAD, computer mapping programs, mine surveying maps, and computer reserve analysis.
- Proficient in Microsoft Office (Outlook, Excel, and Word).
- Report and analytical writing and formatting is required.
- Ability to initiate and coordinate client projects on time and with minimal supervision.
- Knowledge of GEMCON, Arcview or GIS a plus.
- Previous construction aggregate experience in Midwest a plus.
- Travel and fieldwork required.
